

ALLEGHENY COUNTY WEATHERIZATION PROGRAM

What is Weatherization?

"Weatherization" of a home means that measures have been taken to reduce the amount of air infiltration "out of" and "into" the home. In other words, "keeps the warm air in and the cold out."

Weatherizing your home helps reduce your fuel consumption. Reducing your fuel consumption lowers your heating bills.

Weathering your home or apartment creates a warmer, more comfortable draft free environment for you during the cold winter months.

FREE Weatherization is available to Allegheny County residents who meet the eligibility guidelines.
